Shop Sets Add Degreaser

Units authorized the Common No. 1 and No. 2 shop sets are now also authorized a fully deployable parts and weapons washer.

Called a degreaser, the cleaning system measures 23 x 17 x 6 3/4 inches and can be powered by a generator. The degreaser uses a solvent that's environmentally compliant and a filter that captures particles as small as 1/10 micron in diameter.

Order the degreaser with NSN 4940-01-482-0479 for \$799. It uses cleaning solvent, NSN 6850-01-378-0679, and a filter, NSN 4250-01-381-8024, both of which are expendable items and must be ordered separately.

BOLT CUTTER JAWS

IF THE JAWS FOR YOUR BOLT CUTTER HAVE **WORN OUT**, HERE ARE THE NSNS YOU NEED TO **REPLACE THEM...**

I THINK IT'S TIME I GOT SOME **NEW JAWS!**
